

Atlas of Breeding Birds

in the Barnsley Area 2006-2011

David M. Pearce & Peter Middleton

The first atlas of breeding birds for the Barnsley Bird Study Group recording area (560 km²), and the most comprehensive and detailed account of breeding birds in the Barnsley area ever produced. Full colour maps of breeding distribution and abundance for 130 species, estimates of local breeding populations for the Barnsley recording area, analysis of local breeding status and conservation for each species. This is a landmark publication in Barnsley ornithology and provides a fascinating insight into the breeding birds of the area.

Published by Barnsley Bird Study Group and available from 30th September 2018.

Limited edition of 200 copies only, 344 pages, full colour, paperback, £35.00 per copy.

OFFICIAL BOOK LAUNCH at OLD MOOR RSPB

Dearne Valley, Old Moor Lane, Wombwell, Barnsley, South Yorkshire S73 0YF

SUNDAY 30TH SEPTEMBER 2018 from 9.30am to 4.30pm

Barnsley Bird Study Group has funded publication of the atlas through sponsorship and fundraising which continued throughout the atlas project. Due to increases in the cost of publication over recent years, since the original costs were given, costs which have been outside the control of the authors and the bird study group, the cost per book has unfortunately had to increase accordingly.

Sponsors who originally paid £20.00 to sponsor a species and have their name in the book on their chosen species page, will only be asked for an additional £15.00 per copy to help cover costs and will be offered copies first. To anyone who has not sponsored a species in the book, the cost will be £35.00 per copy. Postage & packing per book is £5.00.

Demand is expected to be high, therefore to reserve a copy please contact, David Pearce (dmp.waxwings@btinternet.com), Peter Middleton (BBSG Secretary – pmiddleton630@btinternet.com) or Graham Speight (BBSG Chairman – grahamspeight@uwclub.net). Please make cheques payable to Barnsley Bird Study Group, cash payments will also be accepted. Thank you for supporting Barnsley Bird Study Group.
